WESTROCK COFFEE'S STORY

LASTING RELATIONSHIPS

The heart and soul of our company can be found in the rich cultures, temperate climates and fertile soils of East Africa. Our Rwanda Trading Company and Tembo Coffee Company are models for how to work with the people of these lands in a passionate pursuit to create ideal, sustainable environments for coffee growing.

A FOCUS ON ORIGIN

At every point in our coffee's journey, we're there. From crop to cup, our presence and participation affords us the opportunity to ensure quality throughout its unique lifecycle.

That means paying specific attention to each phase to ensure that our processing, sorting, bagging and shipping meet the highest standards. We bring all of this knowledge with us to the roasting process to ensure our coffee reaches its full flavor potential.

OUR COMMITMENT

Today, we provide global export opportunities and purposeful employment to numerous friends and partners at origin.

No matter where our pursuit of premium coffee takes us, we commit ourselves to beginning at the source and ending with the customer.
